

## DR. HALL DENIES THE REPORT.

He Says He Will Not Accept the Chancellorship of the University.

## THAT LUMBER TIE-UP CONTINUES.

Orphan Immigrants Arrive—Those Water Meters Again—Interesting Inquest.

NEW YORK BUREAU, RICHMOND TIMES, NEW YORK, MAY 29, 1891.

When the Rev. Dr. John Hall was asked to say if he was going to resign the pastorate of the Fifth-avenue Presbyterian church to become acting chancellor of the University of New York he said that he had never thought or heard of such a thing until he had seen something about it in the morning papers.

## THE LUMBER TIE-UP CONTINUES.

This is the third week of the lumber tie-up, and notwithstanding the repeated efforts to settle the matter in dispute between the dealers and the board of walking delegates, all the lumber-yards in this city and Brooklyn are closed tightly up, no material being sold to builders.

The object, which is hardly clear, of the dealers in causing this serious embargo, seems to be effected in respect to handling the laboring portion of the building trades, as hundreds of men—carpenters, framers and bricklayers—are reported to be idle. The prediction that a great labor war is impending may be realized.

## TWO ORPHAN IMMIGRANTS.

The steamship Odam arrived here to-day from Rotterdam with 396 immigrants in the steerage. Among these were John Trick, a lad of sixteen years, and his brother William, aged fourteen. Six months ago the father of the two boys died. With the mother they started for this country in the Odam, en route to the home of their uncle, a rich farmer at Darlington, Miss. When the ship was four days out from the other side the mother died. The orphans will be forwarded to their uncle.

## DEATH IN AN ELEVATOR.

Abram Nuchensky, fifteen years of age, in the Colgate soap works, Jersey City, this morning got on the passenger elevator and started it. He did not understand the working, and when he tried to stop the machine he pulled the wrong rope. This sent the elevator up faster than ever. Nuchensky stuck his head out and it was caught between the rapidly rising elevator and the floor above. In an instant his head was cut clean off.

## THOSE WATER METERS.

This city when ruled by Tweed bought of Jose F. DeNavarro nearly 10,000 water-meters for \$400,000. Shortly afterwards the water went to prison, but the meters remained and were a fruitful subject of litigation. They were of no use. John Hanley was said to have made two weeks ago an offer of \$25,000 for the 9,700 meters now on hand. At auction to-day 211 meters were sold for \$721.35 as found just.

The inquest on the body of a man found mangled on the elevated road on the One Hundred and Fifty-fifth street station on May 28th was begun to-day, but postponed because John H. Clark, the supposed victim, entered the coroner's office to deny that he was dead while the testimony was being taken.

## TO VISIT JOHNSTOWN.

The Johnstown Correspondents' Association, which is composed of newspaper men in New York, Philadelphia, Washington, Cincinnati, Harrisburg, Pittsburgh, Chicago and other cities, will visit the scene of the disaster of March 12, 1889, to-morrow, to commemorate that terrible event. The New York contingent, which includes representatives of the Herald, World, Tribune, Times, Mail and Express, left this evening for Philadelphia to meet their colleagues from other cities. A sumptuous dinner will be served at the Hotel Bellevue. No programme is set for the dinner, but everybody will talk about the hard luck they had while at Johnstown and the kindness of General Daniel Hastings, who was in charge of affairs there. At the conclusion of the feast the association (with General Hastings, who will occupy the position of honored guest, will take a special train for the strike city to visit the old scenes where they trapped two years ago to lustre of their dispatches.

## "NO THIRD PARTY."

Senator A. H. Colquitt, of Georgia, who is in town, is quoted as saying: "Whatever the decision of the Farmers' Alliance Convention in Cincinnati might have been towards organizing a third party, there will be no third party in Georgia. The Alliance is strong, but it is made up of Democrats who will vote the Democratic ticket. The Alliance ideas on the tariff question are the ideas of the Democratic party. The Alliance is in favor of the free coinage of silver, and so are the Democrats. I believe not only in Georgia, but all through the South."

## DR. PAGE'S RESIGNATION.

There has been some speculation in Hackett's upper portion of this city, among the non-members of the congregation of the New York Presbyterian church, at Seventh avenue and One Hundred and Twenty-eighth street, regarding the resignation of the pastor, Rev. Dr. W. V. Page. The published report that his resignation was due to his advanced age, is of course erroneous, as Dr. Page is only forty-six years old. He has now been pastor of the church for twenty-two years, and has for several years desired to discontinue his labors and take a needed rest, but the church refused to accept his resignation. When he again offered his resignation a few days ago it was again rejected by a vote of 115 to 3. The matter will be considered at a meeting of the Presbytery in the Scotch church on June 8th. Dr. Page has told his friends that while all he desires is a period of rest, he hardly feels that his church could afford to give him a vacation, as he is in need of, and that he therefore felt it his duty to resign. A movement is on foot in the congregation to retain Dr. Page's services by making provisions for giving him a long vacation. When the civil war began Dr. Page, at the age of sixteen years, entered the Confederate army, and he became captain of General K. E. Lee's scouts and couriers.

## WALL-STREET ECHOES.

The advance and activity in Chesapeake and Ohio is credited to the operations of a few traders who detected the appearance in the stocks of buying orders from inside people. It is claimed that the Vanderbilt own a large amount of the common stock alone, and are taking great interest in promoting its business wherever and whenever possible. The bonds of the Richmond and Alleghany division have been bought this week by a banking-house, which is usually very careful in selecting bonds.

## FARMERS' AND GENERAL.

The United States gunboat Concord left the navy-yard last evening under the command of Captain Batchelor, for Norfolk, to join Acting Rear-Admiral Walker's squadron of evolution. It is said to be the intention of the Department at Washington to send the Bennington, the sister boat of the Concord, to the Chesapeake as soon as she has been made ready for service. It is thought at the navy-yard that she will not be ready to leave for a month at least. With the addition of the Concord and the Bennington to his fleet, Admiral Walker will have three twin gunboats of the same type, the Yorktown being a sister of the other two, as well as the larger cruisers Chicago, Boston and Atlanta for training in squadron evolutions. The brooch that broke out some weeks ago between the leaders of the military bands and the National Guard because of the latter's refusal to pay their musicians \$800 for the day, has widened. The result of the affair will result in the unusual spectacle of a big parade on Decoration Day with very little music.

## Her Hair Changed Color After Death.

A very peculiar circumstance is mentioned in connection with the death of Miss Belle Koon, who was killed at Waterville Sunday night. She had Auburn hair, but when her friends from this place saw her body after the accident they were astonished to notice that the color of her hair had changed to brown.—Kennebec Journal.

## HICKORY NO. 1, H. D. C. FIG, AND CAROLINA BROWN SUGAR, AND CHOICE SUN-CURED TOBACCOES, TRY THEM.

"I Could Move the World If I had something to rest my lever on," said Archimedes. Large bodies move or are moved slowly. But it is no impossible or even difficult task to render those small bodies, the kidneys, active when they are not so. Don't try to do this with unmedicated alcoholic stimulants. The experience is unsafe. The sure, safe means is Hostetter's Stomach Bitters, which affords just the right amount of stimulus without overdoing the matter. Continued inactivity of either the kidneys or bladder, it should never be lost sight of—are attended with grave peril. Bright's disease, diabetes, and other ailments which affect the renal organs have their origin in inaction of the kidneys. To overcome this is an easy matter at the outset. Not so later. Now is the appointed time in a case of this sort. Irregularity of the bowels, stomach and liver, rheumatism and malaria are remedied by the Bitters.

If you feel all broke up and out of sorts, agitate your liver with Simmons' Liver Regulator.

## SUMMER RESORTS.

**The Pavilion Hotel,**  
New Brighton, S. I.

The CUISINE one of the leading features. Orchestral Music daily. First-class New York and Southern references given on application. For terms, &c., address  
GEORGE M. TILTON,

R. B. CHAFFIN & CO., Agents.

## FOR SALE CHEAP.

A very nice-located FARM of 300 acres in Gooseland county, two miles from railroad station, and thirty-two miles west of Richmond. It is in a thickly-settled neighborhood, close to church, store, postoffice and school. No healthier spot could be found in the entire State.

The land lies nicely for cultivation, only slightly rising, and the soil is adapted to the raising of grain and grass. Mica has been recently discovered on the farm. The improvements, including eight rooms besides hall and closets. Outbuildings consist of Barn, New Stable for twelve cows, Carriage-house, Poultry-house, Office, Out-Kitchen, Quarter, &c., Good Garden, Orchard with Apples, Peaches, Pears, Cherries, Quinces, &c.

About one-third of the farm is in wood, balance cleared. Watered by spring branches, and good well of pure soft water in yard. This farm being in such a healthy location and so convenient to railroad would make a desirable summer home for anyone doing business in Richmond. Price \$5,000, on easy terms. For particulars, apply to  
W. A. PARSONS,  
No. 2 North Ninth street,  
Richmond, Va. fel-1f

CHASE CITY LITHIA WATER.

**WONDERFUL AND UNPARALLELED RECORD**

OF THE CURE OF AN AGGRAVATED CASE OF BRIGHT'S DISEASE BY FOUR MONTHS' USE OF THE

**CHASE CITY LITHIA WATER!**

APPEARANCE OF MR. J. D. WAKEFIELD, OF KENTUCKY, ON HIS ARRIVAL AT CHASE CITY, VA., WITH BRIGHT'S DISEASE, APRIL, 1890.

**ATTENTION IS CALLED TO THE FOLLOWING CERTIFICATES:**

**BRIGHT'S DISEASE.**  
A Well-Defined and Undoubted Case of Bright's Disease Cured by the Chase City Lithia Water.

THE CASE OF MR. J. D. WAKEFIELD, FORMERLY OF WAKEFIELD, KY.

Below will be found statements and certificates that will fully warrant the claim that the Chase City Lithia Water has effected the most wonderful cure of Bright's Disease on record. Mr. Wakefield's condition when he arrived at Chase City in April, 1890, was most desperate. He had suffered for a number of years with Bright's Disease and kidney troubles in their most aggravated forms and had vainly vain all the remedies known to the medical profession, and had also used for a number of years one of the most celebrated Lithia waters in the world without obtaining relief. A consultation of the most prominent physicians in Louisville, Ky., was held in regard to his case, which was pronounced by them to be an undoubted case of Bright's Disease, and it was decided by them that the only possible way of saving his life would be to take him to New York and have his kidney removed. Mr. Wakefield would not consent to this, but soon after the consultation came to Chase City and commenced the use of the Chase City Lithia Water, which in three months restored him to the condition in which we find him to-day.

Statement of Dr. James R. Hughes of Bloomfield, Ky.

MINERAL HOTEL, CHASE CITY, VA., June 18, 1890. Chase City Mineral Water and Development Company:

Gentlemen—On my arrival here from my home, Bloomfield, Ky., the 14th of this month, I met my neighbor, Mr. John D. Wakefield, of Spencer county, Ky. Mr. Wakefield has, to my own personal knowledge, been in very bad health for seven or eight years, and during that time has been treated by some of the most eminent physicians of Kentucky. His nervous system was affected, complicated with Bright's Disease of the kidneys, and it appeared at one time that he would lose one of his kidneys entirely. However, as near death as a man could possibly be, he tried some of the celebrated mineral waters of this country and obtained only temporary relief. He visited this place and has been using the Chase City Lithia Water since the 24th of April, 1890, and, so far as I can now discover, he has

complete relief. His complexion healthy, action improved, appetite restored, rest tranquil and spirits revived. His general condition indicates a restored and invigorated man, attributable to the use of Chase City Lithia Water.

Very respectfully,  
JAMES R. HUGHES, M. D.

Bloomfield, Ky., February 23, 1891.  
John D. Wakefield, Esq.:

Dear Sir—Inclosed certificate for which I thank you, I hope it covers fully the facts that are of special importance to you. It is given with a hearty good will, as I believe it to be the whole truth. That water certainly acted like magic in your case, for I never expected to meet you in flesh again. I hope you are all succeeding well. I shall be pleased at any time to hear of your welfare and happiness.

Yours, etc.,  
J. J. WAKEFIELD, M. D.

This certificate that for ten years I was the physician of Mr. John D. Wakefield, formerly of Spencer county, Ky., now of Chase City, Va., and that during this period his health was very poor. About four years ago urinary analysis revealed the existence of Bright's Disease. The disease contained large amounts of renal derivatives. Remedial agents gave him for a time partial relief, but soon lost their effect. His suffering at times was severe. As soon as for and Bright's Disease, and its inoperable nature, for some time gave relief, but this its good effects, and when his condition became hopeless he was advised to visit Chase City and try the virtue of the water there. The result was wonderful, as he now writes me that he is fully recovered. I am fully satisfied the water of Chase City, Va., saved his life, as I did not believe when last I saw him, that he could live three months. I very respectfully subscribe myself,

J. J. WAKEFIELD, M. D.,  
Bloomfield, Ky.

Bloomfield, Ky., Mar. 5, 1891.  
Chase City Mineral Water and Development Company, Chase City, Va.:

Gentlemen—Having knowledge of the previous wretched condition of health, and also of the wonderful restoration of my friend and brother-in-law, John D. Wakefield, it affords me great pleasure to lend my testimony to the curative properties of Chase City Lithia Water, as evinced in his particular case.

More than three years ago, when I became pastor of the Presbyterian Church of which Mr. Wakefield was a member, I soon discovered that he was a victim to that usually fatal malady, Bright's Disease, with its inoperable nature. In that time I have been with him as his pastor, through much suffering. There were times when I thought the end must come, and that speedily.

In addition to its wonderful curative effects in the treatment of Bright's Disease and other Kidney Troubles, this Water has achieved a widespread and enviable reputation as a specific for Dyspepsia, Indigestion, Insomnia and as a Nerve Tonic.

Guests who may desire to visit Chase City during the present season will be pleasantly accommodated at the hotel on the property owned by the Company, and at private boarding-houses in the town, on reasonable terms, and arrangements have been made to supply all guests who have been assigned places by the Company with the mineral waters at the boarding-houses. Write to the Company stating the kind of accommodation desired and full information and terms will be given. Dr. H. L. Burwell, resident physician, office at Mineral Hotel.
